Summary

Java Full Stack Developer with 5+ years of experience in enterprise software development using **Java, Spring Boot, REST APIs, React.js, JavaScript, SQL, and MongoDB**. Experienced in developing scalable backend services, responsive frontend applications, RESTful API integration, automated testing, debugging, and production deployments. Strong problem-solving skills with experience working in Agile, cross-functional teams.

Skills

Core Java	**Advanced Java**	**Spring Boot**	**React.js**
REST APIs	**SQL**	**MongoDB**	**JavaScript**
Glean AI Tool	**Problem Solving**		

Experience

Application Developer **Feb 2020 – Oct 2025**

Thoughtworks, Pune

- Developed enterprise applications using **Java** and **Spring Boot**, building scalable backend services and REST APIs.
- Developed responsive web applications using **React.js** and mobile applications using **React Native**.
- Developed a chatbot using **Google Apps Script**, **Google Chat API**, and **Glean API** to automate timesheet code identification.
- Designed and implemented a **Glean Agent** to identify inactive users and improve operational efficiency.
- Contributed to data governance by red-listing Google Drives and employee data to support search indexing compliance.
- Performed end-to-end testing using **Jest** and **React Testing Library (RTL)**, improving application reliability.
- Participated in code reviews, sprint planning, debugging, production deployments, and cross-functional Agile development.

Lecturer **Jul 2017 – Apr 2018**

VSS College, Jalna

- Taught Computer Science and Information Technology subjects and guided students through academic projects and practical laboratory sessions.

Assistant Professor **Feb 2010 – Jun 2015**

MSSCET, Jalna

- Delivered undergraduate Computer Science courses, mentored students, supervised technical projects, and conducted academic assessments.

Projects

Blog Website – MERN Stack Live Demo

- Developed a full-stack **MERN** blog application with separate Admin and User interfaces.
- Implemented secure admin authentication and blog creation, editing, publishing, and deletion workflows.
- Developed RESTful APIs using **Node.js, Express.js, and MongoDB**.
- Integrated cloud image uploads and **Google Gemini AI** for automated blog content generation.
- Built responsive user interfaces using **React.js** and **Tailwind CSS**.

Education

2014–2016 **Master of Engineering (M.E.) – Computer Science & Engineering**
Jawaharlal Nehru Engineering College (JNEC), Sambhajinagar, Maharashtra

2005–2009 **Bachelor of Engineering (B.E.) – Computer Science & Engineering**
Matsyodari Shikshan Sanstha's College of Engineering & Technology (MSSCET), Jalna, Maharashtra

2003–2005 **Higher Secondary Certificate (H.S.C.) – Science**
Devgiri College, Sambhajinagar, Maharashtra
